About Ross Handling

Ross Handling is the UK's number one supplier of Castors, Wheels, Tube End Fittings, Adjustable Feet, Handwheels, Handgrips and Material Handling Equipment. We are a family run business based in the heart of the East Midlands and we deliver our quality products to every corner of the UK and beyond.

We are also the exclusive UK distributor for the full range of WheelEEZ products.

In the 1990s we introduced a complementary range of tube end fittings, ferrules, rigid feet, handwheels and hand grips; enabling Ross Handling to become a one stop shop for material handling equipment. We have continued to expand our range ever since, more recently developing a close relationship with WheelEEZ to help bring their balloon beach wheels to the UK market.

We focus on tried and tested quality products, meaning that we can offer you the best castors, wheels and tube fittings for your application. All our products are RoHS compliant, and carry certificates of conformity to ISO:9001.

Our Leicester Head Office warehouse has thousands of products in stock, ready for a next day delivery. With a No Quibble returns policy, free expert advice and competitive prices we remain the number one supplier in the market.

The Ross Handling online shop is easy to use, simple and hassle free. If you can't find what you are looking for, simply call us and our specialists will offer you advice and point you in the right direction.

EEZ®

BEACH CARTS

WheelEEZ Beach Cart

MODEL: WZ1-BC

The WheelEEZ Beach Cart is designed to carry all your beach kit over soft sand, pebbly beaches and other challenging environments. The handle bar and kickstand fold in and the wheels and axles can be removed without tools, making it easy to travel and store! It is also ideal for gardening, yard work and other home projects.

Supplied with 42cm (16.5") polyurethane low-pressure WheelEEZ balloon wheels

INSIDE TUB: 61 x 36.5 x 32 cm (24 x 14.4 x 12.5")

WHEEL DIMENSIONS: 42 x 20 cm (16.5 x 7.9")

MAXIMUM PAYLOAD: 100kg

AXLE MATERIAL: Marine grade anodised aluminium

HARDWARE MATERIAL: Stainless steel

WheelEEZ Folding Beach Cart

MODEL: WZ1-BCF

The Folding Beach Cart is perfect for hauling beach chairs, coolers, picnic equipment, surf equipment, umbrellas and anything you need for a sunny day at the beach. It is also ideal for gardening or hauling equipment for sporting events and folds flat for easy storage. Its beach balloon wheels will not sink or plough into soft sand, soggy turf or other challenging terrain.

Supplied with 30cm (11.8") polyurethane low-pressure WheelEEZ balloon wheels

PLATFORM: 36.8 x 35.6 cm (14.5 x 14")

MAXIMUM PAYLOAD: 75kg

AXLE MATERIAL: Stainless steel

STRAPS AND AN ELASTIC BAND INCLUDED

PADDLEBOARD & KAYAK TROLLEYS

WheelEEZ Kayak / Canoe Trolley

MODEL: WZ1-KCB

The WheelEEZ Kayak Cart is equipped with 30cm polyurethane balloon wheels to transport your canoe or kayak with ease over soft sand and other challenging terrains. Carries up to 80 kg (176 lbs). Strong marine grade anodized aluminium tubing (3mm wall thickness) means it is built to last. Includes 2-tie down straps to secure your kayak to the cart.

BEST FOR USE ON: Soft Sand and other challenging terrain

FRAME MATERIAL: Marine grade anodized aluminium

HARDWARE: Stainless steel

INCLUDES 1 PAIR OF 4m (13") TIE DOWN STRAPS

WheelEEZ Standup Paddleboard Trolley

MODEL: WZ1-SUPC-1-PU

The WheelEEZ Standup Paddleboard Trolley holds one board or one SUP. It is equipped with wide tread 24cm polyurethane balloon wheels so you can transport with ease over any terrain. Make moving your stand up paddle board so much easier using our lightweight SUP Trolley. These are the best SUP trolleys on the market as the wheels can be used on any challenging surface without getting stuck. The SUP dolly is lightweight which means it's easily transported. The balloon wheels are air filled but soft to the touch making them able to absorb and glide over difficult wood, gravel and sandy surfaces with ease.

Trailer Carries up to 45 kg (99 lbs)

BEST FOR USE ON: Soft sand gravel and other challenging terrain

MATERIALS: Anodized aluminium frame

HARDWARE: Marine grade stainless steel

MODEL: WZ1-SUPC-1-PU

WheelEEZ Standup Paddleboard Triple Trolley

MODEL: WZ1-SUPC-3

WheelEEZ Standup Paddleboard Triple Trolley holds three paddleboards, SUPs or surfboards with ease. It is equipped with 30cm polyurethane balloon wheels so you can transport with ease over any terrain and not get stuck!

Carries up to 80 kg (176 lbs).

MOBILITY

Sandpiper Beach Wheelchair

MODEL: SANDPIPER

The Sandpiper beach wheelchair is designed for children but can easily support the weight of an adult. It is the smaller version of the Sandcruiser and is specifically designed to glide over challenging terrains, therefore creating the perfect sand wheelchair.

SPECIFICATIONS:

- Designed with travelling in mind, the chair can be dismantled and reassembled with ease.
- 48cm seat height, with raising armrests to make transferring safe and easy.
- Front castor wheels that allow a full 360° turn.
- Removable and adjustable leg rests for maximum comfort.
- Seat cover made from a breathable acrylic which is extremely strong, resistant to salt water, is UV stabilised and quick drying.
- Strong, durable and rust proof.
- Lightweight and easily packed away for storage.
- Lap belt fitted as standard for added safety.

Sandcruiser Beach Wheelchair

MODEL: SANDCRUISER

The Sandcruiser is our adult beach wheelchair. Created to allow access to the great outdoors, the Sandcruiser is specifically designed to glide over all terrains with ease.

SPECIFICATIONS:

- The large polyurethane beach wheels mean a comfortable ride over uneven terrain.
- Designed with travelling in mind, the chair can be dismantled and reassembled with ease.
- 48cm seat height, with raising armrests to make transferring safe and easy.
- Front castor wheels that allow a full 360° turn.
- Removable and adjustable leg rests for maximum comfort.
- Seat cover made from a breathable acrylic which is extremely strong, resistant to salt water, is UV stabilised and quick drying.
- Strong, durable and rust proof.
- Lightweight and easily packed away for storage.
- Lap belt fitted as standard for added safety.
- The maximum weight of the intended user is 120kg
- Overall width including wheels is 980mm

Debug Baby Buggy

MODEL: DEBUG Baby Buggy

The Debug Baby Buggy is an all-terrain buggy with multiple reclining positions and turning front wheels. Designed to safely provide users with transportation across areas where a conventional baby buggy becomes unmanageable. This includes areas such as beaches, snow covered side-walks, forest trails, etc. Debug is intended to provide decades of service life in the harshest of environments. The folding lightweight aluminium frame makes for easy transportation and storage. With foot brake locking feature and convenient storage areas for baby supplies.

SPECIFICATIONS:

- Easy folding frame for transportation and storage.
- Foot brake and locking mechanism.
- Convenient storage areas for baby supplies and beach equipment.
- Salt water-resistant stainless steel castors and axles.
- Easy turning with the front wheel castor.
- Removable hood and tray.
- Lightweight aluminium frame.
- 5 point harness.
- Reclining seat with multiple positions.

MADE TO ORDER

Sandcruiser Dune Buster

MODEL: SANDCRUISER DUNE BUSTER

The new Sandcruiser® Dune Buster glides smoothly over sand, grass, mud, gravel, and small rocks. Special Balloon Wheels by WheelEEZ™ are soft and pliable, facilitating use on beaches, trails, sports fields and other challenging terrain. Let Sandcruiser® open a world of accessibility for your adventures!

The Dune Buster is specifically designed for those needing additional weight capacity. The weight limit of this model is 135 kg. Other benefits include additional floatation on soft sand and greater stability on sloped terrain for less stress and increased enjoyment.

SPECIFICATIONS

- Made with all the same specifications and benefits of the
- Sandcruiser beach wheelchair!
- Equipped with 4x49cm WheelEEZ balloon wheels
- Capable of supporting a higher weight than the Sandcruiser at 135kg
- 3 year warranty on the frame
- 24 month warranty on wheels & upholstery

Debug EZ Roller Surf

MODEL: EZ Roller Surf Pontoons

The Debug EZ Roller Surf Wheelchair has a fixed frame and turning front wheel. It is designed to float in water and can come with dual pontoons with cup holders that are attached as arm rests. Designed to safely provide wheelchair users with transportation across areas where a conventional wheelchair becomes unmanageable, such as beaches, snow-covered side-walks and forest trails. The EZ Roller is intended to provide decades of service life in the harshest of environments. The sling material has anti-stretching properties and resists bacteria, cold cracks and UV damage. It is also conveniently machine washable and features an umbrella mount.

SPECIFICATIONS

- Marine grade stainless steel and acrylic protect from rust and UV damage
- Equipped with WheelEEZ balloon wheels
- Chair fixed in a comfortable, reclined position that keeps the head and shoulders above water level whilst floating
- Capable of supporting 125kg
- Warranty included as standard

Debug All-Terrain Chair

MODEL: DEBUG Elevating Leg Rest

The Debug All-Terrain Beach Wheelchair is available to a range of specifications that allow for various levels of recline. This includes options for a reclining leg rest, back rest and tilt-in-space options, as well as all of these options combined for the ultimate relaxing ride!

Designed to provide wheelchair users with an off-road option that is as effective and safe as the rest of our WheelEEZ range, as well as being as easy to clean and maintain as any of our other chairs.

Can be equipped with a variety of accessories to further improve convenience, such as umbrella mounts and cup holders.

SPECIFICATIONS

- Marine grade stainless steel and acrylic protect from rust and UV damage
- Equipped with strong, lightweight WheelEEZ balloon wheels
- Available in a range of recline options
- High weight capacity of 181kg
- Warranty included as standard

MODEL: DEBUG Roller Surf

MODEL: DEBUG Reclining

Extreme Motus All-Terrain Wheelchair

MODEL: X3

Seat Sizes: 14.5" / 15.5" / 17.5"

Weight: 22.22kg

Load Capacity: 160kg

Handle Bar Height: 40 - 44"

Wheel Material: Grey Polyurethane

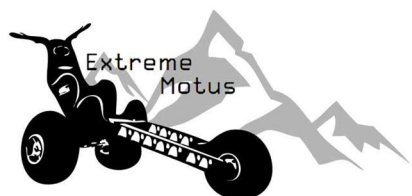

Wheel Diameter (Rear): 42cm

Wheel Diameter (Front): 30cm

Tyre Pressure: 2 - 4psi

Independant disk brakes

5-point harness available

ROSS
handling

The X3 is fully equipped to tackle any terrain thanks to its long wheel base, independant rear brakes and a center of gravity over the rear wheels which allows the driver to easily handle the chair without needing to exert excessive force. The patented balloon wheels provide suspension for the user as well as being bouyant in water, meaning the chair and user can float as well as getting over any obstacle.

Available in seat sizes small, medium or large and colours red or blue.
