

GO ANYWHERE

In your very own wheelchair, simply by adding the **WheelEEZ**[®] Conversion Kits

WHAT ARE WHEELIEZ® WHEELS?

Wheeleez are an American company who produce a wide range of polyurethane wheels. Specifically designed to navigate challenging terrains such as soft sand, mud, gravel and grass these wheels will get you anywhere!

READ AVA'S STORY....

Our Wheeleez beach wheels were purchased by Laura Jolliffe mother of Ava who has a rare condition Brown Vialetto Van Laere Syndrome (BVVL). Ava made the headlines in 2015 due to her being denied benefits as her disability was deemed not severe enough, fortunately after a long battle Laura won her appeal for Ava and you can follow Ava's updates over on her blog [Ava's Appeal](#) or [Facebook page](#).

Just like every child Ava just wants to be able to enjoy a day at the beach with her family and be able to walk her dog along the sand. Sadly due to Avas need for a wheelchair this day trip isn't so simple.

To make this the beach accessible to Ava this summer Mum Laura has been researching the best way to get around the problems she is faced with. After a lot of research she found the ready made beach wheelchairs were not within her price bracket and unfortunately rental beach wheelchairs aren't available locally. With this in mind Laura took it upon herself to create Ava her own beach accessible wheelchair using our [WheelIEEZ®](#) balloon wheels and a pink wheelchair frame.

TRANSFORM YOUR EVERYDAY WHEELCHAIR

1

TAKE YOUR ORIGINAL WHEELCHAIR

- Convert any manual chair
- NHS wheelchair friendly

2

CHOOSE YOUR 'REAR' WHEEL KIT

- 2 x Wheelleez® polyurethane wheels
- Aluminum axle
