

## LAG Fixed Heavy Duty Stainless Steel Castors INOX40 Series

LAG INOX40 range of fixed 304 grade stainless steel castors. This version is fitted with the soft blue polyurethane wheel with stainless steel bearings for better rolling resistance. These castors are ideal for use in wash-down environments such as in the food industry..The heavy duty pressed 304 stainless steel housing is held together by a riveted king pin for extra durability. Available in a wide range of wheel diameters from 100mm to 300mm and load capacity ranges from 250kg - 600kg..

Product Code	 Wheel Diameter	 Load Capacity	 Plate Length (mm)	 Plate Width (mm)	Price 1+ (ex. VAT)
